# CHARGES DESERTION

Mrs. Pinchin Says Her Husband Left Her After More Than Thirty Years of Married Life.

Pinchin declares that her hus band, Job Pinchin, has deserted her after a married life of thirty-two years, beginning at Bristol, England, in 1874. They came to Utah in 1887, and have three children, two of whom are of age and the other is 18 years old. She filed her suit for divorce Saturday, in which she says that on November 5, 1906, when she was 53 years old and he was 52, he left her, after failing to support her for a whole year. She says that by their joint efforts they have acquired real estate in Salt Lake county and lands in Millard county worth \$5,500 or \$6,000. She is now, she says, getting old and is in poor health, so wants a part of the property. She asks, furthermore, that Pinchin be restrained from in any way disposing of it. Another request is for \$500 attorney's fees and \$25 costs, with the custody of the minor child.

Laura C. Tyler says that Charles C. Tyler has not furnished her with support since July 1, 1906, and she asks that the custody of the two younger children, aged 6 and 4 years, be given her with a divorce. He may have, she says, the other two older children. They were married at Vernal, Uintah county, on Christmas day, 1894.

"I am surprised and exultant over the tremendous success that our scheme for ropening that tract has met," said Mr. Holmquist yesterday. "The results show the demand that the people of Utah have for small tracts of fruit land and for market gardening. The Honeyville Orchard company conceived the scheme of subdividing the 160-acre orchard some time ago, and the tract was cut up into five-acre and ten-acre tracts and placed five-acre and ten-acre tracts and placed on the market last Monday. Already ten of these tracts have been purchased outright, and tomorrow I'm taking down a party of other investors. Each five-acre tract has 500 apple trees, three years old and bearing, and the company agrees to take care of the trees until they are rix years old."

### SPIRIT OF '76 GETS AN EARLY START IN MAKING NOISY DEMONSTRATION

The "Spirit of '76" began to manifest itself in Salt Lake long before midnight last night, and during the early hours of the evening could be heard the explosions of the cannon crackers and the whiz of the nigger chasers. The late morning naps of many weary citizens were rudely disturbed this morning.

That the city will have no official celebration; that the sane, thinking people have spoken for a noiseless Fourth where rifrecrackers and toy pistols will take a back seat, has evidently not been approved by the patriotic small boy. He insists on his traditional rights—the right to be heard and seen and felt, and he has gone about it in the same old way. The started in just as early, and while the fact that the real Fourth falls on Sunday may tend to subdue his spirits somewhat today, tomorrow he will be at it with increased vigor.

While no official celebration for tomorrow has been planned, there are a number of affairs arranged which will
